OBJECTIVE

Motivated and detail-oriented Computer Science student seeking an On-the-Job Training (OJT) or Internship opportunity in software and web development. Eager to apply a strong foundation in full-stack development, modern frameworks, audio signal processing, and database management to build scalable applications while gaining hands-on industry experience.

EDUCATION

Senior High School

Holy Angel University

- 2020-2022

Bachelor of Computer Science

St. Nicholas College of Business and Technology

- 2023-2026

SKILLS

- **Frontend:** React.js • Vite • TypeScript • Vue.js
- **Backend:** Laravel • Node.js • Express •
- **Database Management:** MySQL • PostgreSQL • Firebase
- **Deployment /Version Control:** Vercel • Render • GitHub • Netlify
- **Soft Skills:** Problem Solving • Communication • Multitasking • Logic & Decision Making • Ability to Work Under Pressure

PROJECTS

Personal Portfolio Website

- Built a high-performance, single-page personal portfolio using React.js and Vite to showcase technical projects and skills.
- Created a fully functional user contact form and implemented client-side validation logic.
- Configured version control via GitHub and successfully deployed the production build to a cloud hosting platform

Primero Coffee UI

- Developed a responsive web application UI using React.js and managed server-side logic using Node.js and Express.js.
- Designed and integrated RESTful APIs to handle core CRUD (Create, Read, Update, Delete) functionalities efficiently.
- Applied clean code practices and modular component architecture to ensure long-term codebase maintainability.
